

CAREER CENTER

Fall 2010

Dear Citadel Recruiters:

The Citadel Career Center encourages inquiries from Employers and Graduate Schools who wish to recruit candidates from our undergraduate day program and undergraduate & graduate evening programs for full-time, part-time / seasonal, internship, and graduate study opportunities, as well as experienced alumni seeking career assistance through our office. Please refer to our [Information for Recruiters'](#) web page about our services.

Through Career Fairs, Job/Internship/Graduate School Program Postings via *The Gate* (our online job board and resume database), On Campus Interviews (for current students), Information Sessions, and Information Tables, the Career Center will help you connect with Citadel students and alumni (as appropriate) interested in opportunities with your organization.

The Citadel Career Center is a member of the National Association of Colleges & Employers (NACE) and we follow their [Principles for Professional Practice](#). We ask Third Party Recruiters to identify their clients when posting Jobs/Internships with our office per NACE's Principles for Third Party Recruiters (scroll down page of link above). We believe that students and alumni need this information to make an informed decision regarding their application. We are also a member of the state association ([SCACE](#)) and invite South Carolina employers to join the organization. (Details may be found at the preceding link).

We look forward to working with you!

The Citadel Career Center
